Notable features:

This is a nice, complete series, a visually pleasing terrace of mid-nineteenth century two-story shop fronts with gabled roofs. The buildings are of good height, proportions and have a varied roof line. Numbers 1100-1102 have 6/6 windows on second and third floors. Number 1104 is set slightly back of the others. Number 1106 is an original shop front.

Environmental context:

Down-at-the-heels commercial; last-gasp use of these nicely scaled buildings with upper floors boarded up, sealed off or used for storage. (See comment for 1110-1128 W. Baltimore Street.)
